This is a Christian Charity with close links to Zimbabwe. Through our partners there on the ground we are providing relief feeding to many thousands of the poorest of the poor, now close to starvation. The suffering among the people has now reached levels which most of us would find difficult to imagine.

Our partners in Zimbabwe, many of whom are Pastors, know and themselves experience that pain and suffering. Nevertheless they reach out to help the most vulnerable – providing some 2,000 desperate families with a regular monthly delivery of the staple food, together with pastoral care. At the same time they are sharing the good news of Jesus with all.

Persuaded by our team there in the front-line, we have just launched a special appeal with the aim of doubling the amount of relief aid over the next six months before another harvest can be expected. Do read about all this on our website www.zimbabwevictimssupportfund.org
